PROFILE

Cybersecurity professional combining infrastructure, software development, project management and security operations, with a strong focus on SecOps, incident response and automation.

EXPERIENCES

2024 – 2026

Infrastructure & Network Supervisor

Digital Transformation Department, Cybersecurity Unit
Région Guadeloupe

- Deployment and management of **SentinelOne** (EDR/XDR), **Zscaler** (SSE) and **Microsoft Entra** (IAM).
- Monitoring, incident response and security hardening of the infrastructure.
- Automated incident-response tasks with PowerShell, reducing processing time by **86%**.
- Support to teams and documentation of security procedures.

2023 – 2024

Application Developer

Regional Observatory, Studies & Geographic Information
Department - MIG service
Région Guadeloupe

- Development of internal web applications (backend & frontend) using **PHP**, **JS** and **Docker**.
- Integration of **CKAN** for open data management (**APIs**, datasets, **automation**).
- Design, deployment and maintenance of tools used by internal teams.

PROJECTS

CyberAlerte

SECURITY INCIDENT AUTOMATION

Script that supports phishing incident triage and response by identifying affected users, assisting investigation and containment, and maintaining an audit trail.

SOC SOAR Powershell AD/Entra

Application Inventory & Security Visibility

Automated inventory of applications and associated risks. Centralised dashboard, security score and audit reporting.

APIs Sentinel FastAPI EDR Dashboard

IS Urbanization Platform

ENTERPRISE ARCHITECTURE, MAPPING

Platform for mapping business processes, applications, infrastructure, dependencies, with impact analysis, target-state modeling and AI-assisted insights.

Python LLM IS Architecture React/TS

SKILLS

Cybersecurity

SentinelOne Zscaler
Entra/AD MITRE ATT&CK
SIEM / Log analysis OWASP
Incident Response
Security Monitoring

Project & Process Management

Project Management
Technical documentation
Agile/Scrum Teamwork
Risk Management BPMN
Process improvement

Development, AI & Automation

React / Angular / TS
APIs / REST Docker / CI/CD
PHP Python AI Integration
Windows / Linux SQL
PowerShell LLM / RAG

Languages

French - Native

English - B2 (improving)

Creole - Native

EDUCATION

- 2026 **Master MIAGE — Cyber option**
Université des Antilles - Guadeloupe
Software Engineering, Information Systems & Business Management
Ranked 1st in Master 2
- 2020 **BACCALAUREATE SCIENTIFIC**
Baimbridge General High School
Specialization in engineering science with a mathematics option

OTHER EXPERIENCE

- 2026 **Jury - Computer Science Examination**
Selected as a jury member to assess Computer Science projects and critically evaluate proposed IT solutions.
- 2023 **Winner – Caribbean Cybersecurity Challenge**
Selected among the best students in West Indies
- 2022 **Development - Université des Antilles**
Chosen among the top 4 computer science students to work on the university's MyUA mobile application.
